your world shrinks
confined to bed
lose control
you do things when other people want you to
you can't go to people, they have to come to you!
curtailed
Your world shrinks
Your world shrinks
Persons who are ill may fear:
  • suffering and death
  • uncertainties of diagnosis and prognosis
  • pain or embarrassment
  • separation
  • responsibilities at home
  • sickness as punishment
irritable

angry

suspicious

demanding

helpless

caged

lonely
